# DEDICATED COMPUTING
POWERING THE WORLD'S MOST IMPORTANT DEVICES

F9410

# 1U Storage Server

The F9410 is an Intel® 4th/5th gen single socket server designed for storage solutions. It supports SATA/SAS or NVMe removable drive storage and is typically used for RAID-based storage. The server includes 2x 10GbE and 2x 1GbE network connections on the motherboard and offers redundant power supply options.

## Highlights

> **High Storage Flexibility**

> **Compact Design**

> **RAID Support**

> **Reliable Network Connectivity**

**Processor:**
Intel® 4th/5th gen single socket

**Storage:**
SATA/SAS or NVMe removable drives

**Network:**
2x 10GbE and 2x 1GbE on motherboard

**Power Supply:**
Standard/redundant options available
